

BARCELONA GSE SUMMER FORUM 2018 CALL FOR PAPERS

The Barcelona GSE organizes the Sixth **Barcelona GSE Summer Forum**. The Summer Forum is a series of independent workshops that cover the main fields of Economics. The Summer Forum 2018 will take place from June 11 to June 22, 2018 in **a new venue** in central Barcelona ([Casa Convalescència](#)).

More detailed information on the Summer Forum 2018 and the previous editions is available on <http://www.barcelonagse.eu/summer-forum.html>

We would like to invite you to submit a paper to the workshop:

EXTERNAL VALIDITY, GENERALIZABILITY AND REPLICABILITY OF ECONOMIC EXPERIMENTS

The workshop will last 2 days and will take place on **June 19-20, 2018** in Barcelona.

Description:

In the last decades, behavioral and experimental economics have been very successful in showing how economic processes and outcomes are significantly shaped by different aspects of human behavior. These fields, however, are still largely based on findings from experiments conducted in laboratory conditions or with convenience samples of subjects, and there is a growing concern about their external validity and generalizability to real-world contexts. At the same time, we are in the middle of a wide-ranging replication crisis that represents a serious threat to all experimental sciences, with some studies estimating the replicability of published research at less than 50%. This workshop will accept high-quality papers related in any way to the external validity, generalizability or replicability of experimental research.

The **deadline for submissions** is **February 28, 2018**. To submit a paper, use this link <https://app-summerforum.barcelonagse.eu>. Submissions should include either a full paper or an extended abstract with the main results. Authors chosen to present will be notified by mid-March. A preliminary program will be announced by mid-April.

Note that the Barcelona Summer Forum is a series of independent workshops. When you submit your paper, you will be able to see the topics and dates of other workshops that will take place within the Summer Forum. **The same paper cannot be submitted to more than one workshop but you are welcome to submit a different paper to another workshop.**

The workshop organization will not be able to provide accommodation or travel support for speakers. Limited funding will be available only to partially cover travel costs for junior researchers who lack alternative funding sources.

The Barcelona GSE Summer Forum is one of the activities supported by the Severo Ochoa Program of Centers of Excellence (SEV-2015-0563).

Workshop Organizers:

- Matteo M. Galizzi (London School of Economics and Political Science)
- Daniel Navarro-Martinez (Universitat Pompeu Fabra and Barcelona GSE)
