We would like to invite you to submit a paper to the workshop:

FINANCIAL SHOCKS, CHANNELS, AND MACRO OUTCOMES

The workshop will run for 1 day and will take place on **June 19, 2019** in Barcelona. The goal of this workshop is to discuss recent developments on the identification of the real effects of financial frictions. We are particularly interested in applied theoretical and empirical work using *micro* data on the interplay between financial institutions, financial shocks and their short run and long run real effects. We encourage submissions addressing issues including (but not limited to):

- Financial frictions, bank lending, and the real effects of the misallocation of credit.
- Micro data (on finance and real outcomes) for macro questions.
- Credit booms, and the endogeneity of financial shocks.
- Finance, innovation, productivity and growth.
- Interactions between financial and labor-market frictions.
- The short and long run real effects of financial shocks, and optimal monetary and fiscal policy responses.

The **deadline for submissions** is **February 28, 2019**. To submit a paper, please use this link <https://app-summerforum.barcelonagse.eu>. Submissions should include either a full paper or an extended abstract with the main results. Authors chosen to present papers will be notified approximately by mid-March. A preliminary program will be announced by mid-April. A limited budget will be available to cover travel and accommodation costs for some participants.

Please note that the Barcelona Summer Forum is a series of independent workshops. When you submit your paper, you will be able to see the topics and dates of other workshops that will take place within the Summer Forum. **The same paper cannot be submitted to more than one workshop but you are welcome to submit a different paper to another workshop.**

The Barcelona GSE Summer Forum is one of the activities supported by the Severo Ochoa Program of Centers of Excellence (SEV-2015-0563).
