## Policy Lessons

Term 3 – 3 ECTS

Mandatory Course

### Prerequisites to Enroll

none

### Overview and Objectives

The course will bring different experts with an academic background and closely related to policy relevant issues related to the master. The objective is to familiarize the students with the main challenges that policy makers face, how they think about them and the main instruments that they consider to address them. The course will consist of a total of twenty hours.

### Required Activities

At the beginning of the course, each professor will explain the evaluation methods and criteria to the students.

### Evaluation

At the beginning of the course, each professor will explain the evaluation methods and criteria to the students. There would be an exam during the exam term, but there could also be additional evaluation activities depending on the professor.

### Competences

- Own and understand knowledge that provides a basis or opportunity to be original in the development and / or application of ideas, often in a research context.
- That the students be able to integrate knowledge and face the complexity of making judgments based on information that, being incomplete or limited, include reflections on the social and ethical responsibilities linked to the application of their knowledge and judgments.
- Solve the real problems that arise in the fields of study through the accurate analysis of the data.

### Learning Outcomes

- Make decisions based on the fundamentals of the markets and the behavior of public agents.
- Associate the role of public policies in the economic framework.

### Materials

At the beginning of the course, each professor will provide a list of the material.
